## SEWA-Darts.com Out Chart for Novices

This out chart is designed to take you down the right path when trying to achieve a finish. Where there are many ways to take out various numbers, these combinations have been compiled with both the novice in mind, and the highest percentage that you, the player, will be able to achieve to hit the finish, or leave yourself well for the next round.

Many thanks to the members of SEWA-Darts.com for their contributions!

Where two numbers are listed, the second will be the 'what if I miss' correction for the number. By shooting for the Triple and missing to the single you will have a second chance at the out with your last two darts!

Where possible, outs are set up for three darts in a single number, single number double number combination to make the highest possible percentage for achieving the out. It is much easier to hit two singles then one triple EVEN for the most experienced players.

These outs are not intended for the more advanced players, however they will definitely work and provide an excellent chance for any level.
